GETTING BACK TO WORK SAFELY

Health conscious products designed to keep you and your employees safe while at work
Getting Back to Work Safely

As we transition from this quarantine back into our “normal” lives at work, we will notice that things are not as “normal” as they once were. One of the significant hurdles we will encounter is merely having enough knowledge and resources to make informed decisions while at work. Decisions as simple as “when should I wear a mask” or “how can I be sure I’m safe” will be at the front of our minds daily. To ease that burden, Leaderpromos has put together some helpful items to assist you during this unusual transition. These are just some useful resources and tips on what you can do to keep you and your employees safe.

**RECOMMEND EMPLOYEES WEAR FACE COVERINGS**
Masks should be worn in situations where social distancing is difficult to maintain. They help keep cough particles from spreading to others.

**DAILY HEALTH & TEMPERATURE EVALUATIONS**
If an employee is feeling sick and showing symptoms such as fever, tiredness, or a dry cough, they should refrain from coming into work.

**MAINTAIN HEALTHY HYGIENE**
Use hand sanitizer or wash your hands often with soap and water for at least 20 seconds and practice social distancing guidelines.

**SANITIZE AND CLEAN HIGH TRAFFIC AREAS**
Areas and surfaces that are touched frequently, such as doorknobs, light switches, sinks, tabletops and stair rails, should be cleaned daily.

**LIMIT WORKPLACE CAPACITY**
Set a maximum building capacity of 50% of the fire code and be sure employees are practicing social distancing and staying at least 6’ apart.

Do you remember how you felt your first day at a new job? Did you feel safe? Did you need directions on where to go? Was it a welcoming environment that said: “come on in”?

Now more than ever, people are going to need that reassurance that they are entering a welcoming and safe place.
HOW CAN I PROTECT MYSELF AND OTHERS?
BY PRACTICING GOOD HEALTH HABITS

- Wash your hands often
- Cover sneezes & coughs
- Don’t touch your face
- Clean surfaces frequently
- Stay home if you feel sick
- Wear a mask

Phone Cleaner

Personal Sanitizing Wipes
While practicing social distancing, congregating in the cafeteria during lunch isn’t possible. Even going out to lunch during this time will be difficult. So here are some different items to help your employees pack and eat their lunch while still being able to relax and take a break all from the safety of their desks. Also, consider having mugs that can be personalized for the day in your coffee bar area.

**Lunch Time Items**

- Vacuum Bottle
- Insulated Lunch Container
Lunch Kit

Lunch Set with Ice Pack

Wheat Plastic Lunch Container

Personalized Chalk Board Mug
WAREHOUSE

Have you ever wondered how long germs live on boxes? Have you checked on your co-workers to make sure they are also practicing social distancing? Don’t mistake being chilly in a drafty warehouse for having a fever. Use these useful tools to help you and your staff stay healthy and safe.

Think back to the last time you were getting lunch, and the person preparing your food wasn’t wearing gloves or a face covering. In the past, that might not have mattered. But now, there is an expectation that workers will be diligent, wearing face masks and gloves. Hand sanitizer should be accessible to all employees and customers. In addition, your establishment should be using protective counter barriers and food shields, to keep food and customers safe and healthy.
MAKE SURE TO WASH HANDS FOR AT LEAST 20 SECONDS
