

COVID-19 Vaccine Provider Partners For Businesses, Labor Unions and Local Organizations

Beginning April 12, 2021, the Ohio Department of Health (ODH) will allow enrolled providers to vaccinate their own employees and to use vaccine to support employer or organization vaccine programs. This includes, for example, partnering with businesses or organizations to conduct on-site vaccination clinics, making it easy and convenient for employees or members to be vaccinated.

Below is a list of enrolled providers across the State of Ohio who have indicated they are willing to partner as the provider to vaccinate the employees or members of organizations. This list has been compiled to help businesses, labor unions, and other local organizations identify and establish relationships with providers to set-up closed POD vaccine clinics.

This list does not include all enrolled COVID-19 Vaccine Providers. Any of the [1300 enrolled providers](#) in Ohio are eligible to provide vaccines to local businesses and organizations.

Providers may not be able to immediately meet the demand within their communities. Do not let this discourage you or your organization from establishing a relationship with a provider and establishing a plan for when doses are available.

Before reaching out to establish a provider relationship, please read and review the updated guidance on vaccinations for [employers](#) and [providers](#) available at coronavirus.ohio.gov. The guidance includes important information to be prepared with when contacting and coordinating with a potential provider.

This list will be periodically updated. Please check coronavirus.ohio.gov for the most up-to-date list.

Local 3rd Party Providers

Provider	Contact Name, Title	Phone	Email	Address	City	Zip	County
