Your Full-Service IT Provider

RECYCLING ○ HARDWARE ○ SUPPORT

RECYCLING

Secure IT recycling with detailed reporting

We offer electronics recycling for businesses nationwide, including pickup and secure data destruction at our facility with 24/7 surveillance. Our IT recycling solutions can help your business with:

- Asset itemization, lot reports, and certified data destruction
- Hardware refreshes
- Office expansions and relocations, downsizing, and cleanouts
- E-waste collection events for your business or community

Our **online client portal** lets you request a pick up, track your data, and assess your environmental impact.

Our **R2v3 and RIOS certifications** ensure the highest standards for data security and environmental protection.

R2 v3 CERTIFIED

RIOS CERTIFIED RECYCLER

HARDWARE

IT hardware solutions tailored to your business

Our experienced technicians will work with you to develop a custom computer solution that's tailored to your business needs.

- Configure-to-order devices for any business
- Large-scale deployments
- White glove service available to provide as much configuration and installation as you need
- Certified ETL/UL 60601-1 hardware for medical environments

SUPPORT

IT support to keep your business running smoothly

Our team of experts provides proactive monitoring, maintenance, and support of your IT infrastructure to keep your systems up and running.

- 24/7 system monitoring
- Real-time performance insights
- Enterprise antivirus, malware protection, and network security
- Automated backups, point-in-time recovery, and disaster recovery planning
